

Alumni Comments

Our alumni are the best! We are proud of you! You are out there representing us well, making an impact in nurse anesthesia and taking great care of your patients. Read some of the things alumni and employers have to say about our program:

"I feel we have had outstanding preparation. I feel very proud when I say 'I went to Baptist!'" **2005 graduate**

"Your program produces great graduates!" **Employer survey 2006**

"One of our anesthesiologists is always saying 'I want to hire somebody like you, and the way that you were trained' so I take pride in my training. It doesn't go unnoticed." **1998 graduate**

"I want to thank you for giving me an opportunity to attend your program and giving me a new career for which I am so proud, and a new exciting life. The intensity of these past years has helped me to become stronger and wiser and to have set high standards for education and being a role model for my children. I am truly blessed in so many ways and have met so many wonderful people in these last two years. I am proud to be a graduate of Baptist. I will try my best to be the best that I can be as a CRNA." **2003 graduate**

"This has been an amazing journey and I truly feel blessed to have been part of it all. I look forward to the future and what it holds." **2007 graduate**

"Very strong, competent CRNA. Able to handle all types of case situations." **Employer survey 2006**

"This is an intense, short program. It is difficult but not impossible. I choose this program for its reputation and intensity...it has lived up to what I expected. Having many different clinical locations was an asset to my education." **Student survey 2008**

"After orientation, I seemed to feel comfortable in the role of anesthesia provider. I believe the reason for that was the excellent preparation I received from WFUBMC. Thanks to all who had a role in my education." **2007 graduate**

The very first day of class, one of the very first things that the professor told us was that she did not want a "B anesthetist" taking care of her. Her statement has stuck with me and it has pushed me to work harder and set higher goals for myself. I don't want to be just a good anesthetist, but a great one. **Student comment 2009**
